

DuPage County Farm Bureau Ag in the Classroom

Superb Soybean

Our most popular lesson! Learn about soybeans all throughout Illinois. Then, dissect the seed and germinate your own!

Wild about Wheat!

Learn about the crop that gives us the cookies, bread, and pasta we love!

The Perfect Pumpkin

Illinois grows more pumpkins than any other state. Learn about the pumpkin lifecycle and other fun facts.

Illinois Specialty Crops

Illinois is famous for its corn and soybean fields... but what other crops do we grow?

Corny Creations

The corn you see growing on the side of the road isn't for eating. What do we do with it? Learn more about one of Illinois's largest crop.

Amazing Apples

Learn the parts of the apple and see how pollination is a huge part of the apple's life cycle.

Dairy Delight

Learn about loveable dairy cows and how farmers make sure they're comfortable to produce milk. Make your own butter!

Pizza Made not so Easy

It takes 30 minutes to cook a pizza. But how long does it take to grow a pizza?

Soil, A Slice of Earth

What is soil made of? What steps do farmers take to conserve it so it lasts for generations to come?

Lessons in Livestock

We can do an overview of all types of livestock, or we can talk specifically about beef cows, pigs—you name it!

Careers: Hats of a Farmer, and More!

Agriculture is the largest career sector in Illinois, but that doesn't only include farming. What career paths can be taken to succeed in the industry?

Baseball from a Farm?

One cowhide can make 144 baseballs. Wool is used to make the stitching. Thank a farmer for America's favorite pastime.

Farm. Family. Food.™

Visit dcfb.org/educators for more information!

These lessons can be adapted to all age levels. We strive to meet current learning standards. We will work with you to get lessons that fit your curriculum needs!

*The best part?
Everything is
Free!!*
